

THE TRADE REVIEW
FOR THE PAST WEEKEXPORTS ARE LIGHTER THAN
COULD BE WISHED.

This Fact is the Principal Cause of Trade Disturbance—Stock Markets Not Much Affected by Gold Shipments—Failures More Numerous Than at the Same Time Last Year

New York, Nov. 16.—R. G. Dun & Co.'s Weekly Review of Trade says:

"The scare about gold exports had no real significance, and although \$2,250,000 more will go out to-day, the stock market has been recovering. There was and is a substantial cause of difficulty, in the fact that exports of products have been too small to meet the greatly increased imports of merchandise. The collapse of Kaffir speculations abroad has forced many to realize on Americans held, and the impression that our government may have to borrow again also operates to our disadvantage. But there is no local disturbance of money markets.

"The government monthly crop report has caused, as usual, rather more uncertainty as to its interpretation than previously existed as to crops. The cotton statement, lacking account of acreage on which it is based, was of only speculative value, and the mere rumor that Mr. Neill had reduced his estimate of the crop actually weighed more than the official estimate. The bottom fact is that even a smaller crop than anybody expects, with the 3,000,000 bales carried over, will assuredly prevent any famine in cotton. Meanwhile, the exports decreased 36 per cent. in quantity.

"There is really little reason to expect a wheat yield larger than last year's, but Western receipts, 8,202,864 bushels, against 4,026,639 bushels last year, do not mean a scarcity of wheat. Probably it is true that the attempt to induce farmers to keep back their wheat in July has ended, as usual, in much bigger sales at lower prices in November, and prices have now declined so far that, for the first time in many months, Atlantic exports exceed those of a year ago, having been, for two weeks, flour included, 3,260,384 bushels, against 3,193,111 bushels last year. The decline, nearly 1 cent, is not much, but it does not mean confidence in renewed advance.

"Corn is scarcely lower, but without the aid of the government all know that the supply will largely exceed all home and foreign demands.

"The output of pig iron Nov. 1 was 217,306 tons weekly, about 10 per cent larger than ever before, and a continuance of the same production for six weeks more would make the half year's output 5,350,000 tons more, about 450,000 tons greater than in any other half year. The startling fact is that the demand for products of iron and steel falls off, notwithstanding the increase in the output of pig, and though only a few concerns have closed or reduced work or wages on account of lack of orders, prices are sinking, having declined 2.7 per cent for the week and 6.4 per cent from the highest point.

"The woolen manufacturer has to meet this year with two difficulties, the remarkable demand for clay worsteds, which has encouraged an advance of 10 per cent in price, and the heavy import of woolen goods, which have amounted for nine months of the current year to 58,486,402 pounds, against 12,897,068 last year, and 30,398,465 in the same months of 1892. But sales of wool continue large for two weeks of November, 12,192,950 pounds, against 12,389,600 pounds in 1892, in spite of the fact that part of the works are closed or working only part force.

"For the past week failures have been 233 in the United States, against 270 last year, and 49 in Canada, against 38 last year."

Iowa Officials Deny Charges.

Davenport, Iowa, Nov. 16.—The dispatches sent out Thursday night giving charges made by the executive council of state in connection with the state insane asylum charges from Scott county caused quite a sensation, the officers implicated making lengthy statements to representatives of the local papers yesterday. In these the insinuations of the executive council are denounced as false, unfounded and an outrageous slander. County Clerk Balluff, a member of the board of insanity commissioners, states: "I find no authority for the commissioners of insanity to return an insane person to any other state and the commissioners certainly have no authority to turn an insane person loose on the community." All denunciations of the charges of the executive council are ridiculous.

Woman Addresses Knights of Labor.

Washington, Nov. 16.—When the Knights of Labor general assembly resumed its sessions yesterday, a hearing was given to Miss Anna F. Beiler, fraternal delegate, representing the National Woman's Christian Temperance union, who spoke for half an hour on labor and temperance topics. At the business session the committee on laws yielded to the committee on grievances. The report of the latter was considered throughout the morning. John H. Robertson, the secretary-treasurer of the Arkansas order, is urging the selection of Hot Springs as the place for the next general assembly, and as no other cities have been urged, the indications are that Hot Springs will be chosen.

CUBAN WAR NEWS.

Spanish Forces Putting Cuban Forts and Harbors in a State of Defense.

Havana, Nov. 16.—A squadron consisting of the cruisers Ensenada, Cortes, Pizarro, and Vasco has left Palma, the transport Legazpi carrying material which will be utilized in putting the forts and the waters of the harbors of the island of Cuba in a state of defense.

The insurgents have burned the small village of Sabinallo de la Palma, Matanzas, according to advices received by the Spanish officials here. Reports have been received here to the effect that the Spanish troops have succeeded in killing the insurgent leader, Arcadio Romero. Reports from Santa Clara have been received to the effect that in the fight between the column of Spaniards commanded by General Suarez Valdes and the insurgents at Jayas, near Chacao del Hoyo, the insurgents were dispersed.

The insurgent leaders, Gervasio Rodriguez, Otero, Aurelio, and Hevia have been pardoned by General Campos and will leave for New York. The report that a truce has been effected between the insurgent and Spanish forces in the districts of Gibara, Holguin, and at Lajos, in the province of Santa Clara, is pronounced untrue here. The additional report of the surrender of important insurgent leaders and the occurrence of fifty engagements of military importance, published at Madrid, is also pronounced untrue.

FORTY-EIGHT LIVES LOST.

Steam Launch of a British Cruiser Sunk with All on Board.

Shanghai, Nov. 16.—A steam launch belonging to the British cruiser Edgar sank Wednesday in the vicinity of Teasagaki (Nagasaki) and forty-eight men on board are reported drowned.

London, Nov. 16.—The Admiralty has received confirmation of the dispatch from Shanghai, saying that the launch of the British cruiser Edgar had been sunk with a loss of forty-eight lives. The disaster occurred off Nagasaki, and the boat contained forty-eight marines.

Reservations Opened for Settlement.

Washington, Nov. 16.—Under the abandoned military reservation act, the war department has turned over to the interior department for disposal the Fort Buford military reservation (North Dakota), lying on the Missouri river at the mouth of the Yellowstone, and including 444,000 acres; also Fort Hancock (Texas) military reservation, lying on the Rio Grande, fifty-three miles southeast of El Paso, including about 469 acres; and the reserved portions of Cat Island, Mississippi Sound, Harrison county, Mississippi; Horn Island, on the same sound, in Jackson county, Mississippi; Petit Bois Island, on the same sound, and in Jackson and Mobile counties, and all of Round Island, in Jackson county, Mississippi.

Czarina Gives Birth to a Daughter.

St. Petersburg, Nov. 16.—The accouchement of the czarina occurred last evening. At 2 o'clock a daughter was born to the czar and czarina. Both mother and child are doing well. The court physicians in attendance at the accouchement of the czarina report the child to be a handsome girl, and they add that the mother is rapidly recovering. Services connected with the birth of the infant were held in accordance with the rites of the Orthodox Greek church. The baby has been named Olga.

Incendiarism in an Iowa Town.

Hawarden, Iowa, Nov. 16.—Haskell & Co.'s grist mill, North Hawarden, burned at 7 o'clock Thursday night. Loss, \$12,000; insurance, \$5,000. Last night at 8 o'clock the grain elevator of Huntington & Co., at the same place, and the Chicago, Milwaukee & St. Paul depot burned. Twelve thousand bushels of grain and the building are a total loss. The grain is insured for its value. The loss on the building is about \$8,000. The fire is supposed to have been incendiary.

May Give Cuba to Great Britain.

City of Mexico, Nov. 16.—A prominent Spaniard here, who is in close touch with the Spanish government, says that before Spain will concede Cuban independence, or permit the island to come under a United States protectorate, or rule, she will throw Cuba into the hands of Great Britain, conceding to that country ostensible possession for a number of years until she collects the sum of money which is due her from Spain for advances made to carry on the war with Cuba.

Jackson's Hole Settlers Freed.

Cheyenne, Wyo., Nov. 16.—An investigation of the Jackson's Hole Indian troubles of last summer was concluded yesterday by the United States grand jury. Testimony was given by Jackson's Hole settlers and Indians of the party fired upon. The jury failed to find an indictment and the settlers who killed and wounded the Indians will go unpunished.

Father O'Grady Is Insane.

Cincinnati, O., Nov. 16.—Yesterday was the day set for the trial of Father O'Grady for the murder of Mary Gilmartin. His attorney stated that he would file a certificate from a reputable physician that O'Grady is now insane. The court will then call a jury to try the question of his insanity. Further action in the case will depend on the verdict of the jury.

ISSUE MORE BONDS
WITHOUT A DELAY

RUMOR OF PRESIDENT CLEVELAND'S INTENTION.

A Chicago Paper Is Authority for the Statement That an Issue of Bonds to the Amount of \$25,000,000 Has Been Decided Upon, Without Waiting for Congress.

Chicago, Nov. 16.—The Chronicle is authority for the statement that President Cleveland has decided that he will not wait for action by congress before making another issue of bonds. The treasury authorities are already in correspondence with the New York bankers relative to the issue, and it is probable that the bankers will accept their proposition. Here is the proposal:

When the gold reserve falls to \$75,000,000 the banks shall deposit \$25,000,000 in gold in the sub-treasury, and take in return 4 per cent. bonds on a 3 per cent. basis.

The decline of the gold reserve to a danger point last spring forced the government to pay 3 1/2 per cent. for the gold procured from the Belmont-Morgan syndicate. Credit has been re-established by that operation, and the administration desires to take advantage of the greater business confidence now prevailing to secure the gold at the low rate of 3 per cent.

It is not believed that the gold export movement of the remainder of the year will be large, and the acquisition of an additional \$25,000,000 in gold is expected to place the treasury in a secure position until congress can take some action to cure the currency system.

Thomas B. Reed, who, it is conceded, will be the speaker of the house of representatives, has had frequent conferences during the past two weeks with the leading bankers of New York city. Mr. Reed has been astonished at the number of bankers who oppose the immediate retirement of greenbacks. His proposition, which has been advanced as the quickest remedy for the currency troubles, is that all outstanding greenbacks be replaced by a gigantic issue of bonds. While many oppose it on the ground that the sudden contraction of currency would work fully as much if not more injury than the present system, the immediate retirement of greenbacks has been urged on the ground that the formulating of a new currency system will be slow, and the country will suffer meantime.

The result of Representative Reed's conferences with bankers, it is understood, has prejudiced him against the policy of retiring the greenbacks. The attitude of the speaker of the house of representatives will have a commanding influence in congress, as he will control the formation of committees which are to consider the currency question.

The amount of greenbacks outstanding is \$346,000,000, according to the treasury figures, but it is estimated that there is actually in circulation about \$300,000,000.

MISSION APPROPRIATIONS.

Methodist Bishops at Denver Consider the Apportionment.

Denver, Col., Nov. 16.—The missionary committee of the Methodist church devoted a part of yesterday in apportioning the \$1,000,000 appropriated Thursday for missions, and the work was unfinished when recess was taken. Most of the appropriations are 7 per cent less than those of last year, but the appropriations for Nebraska and Wyoming are increased on account of the difficulties with which the churches had to contend last year, owing to the drought.

There was a discussion of the work among the colored people. The appropriations for the South were divided between white and colored fields. This work finishes the apportionment for English-speaking home missions. Today home missions in foreign tongues will be taken up.

National Grange Meeting.

Worcester, Mass., Nov. 16.—At yesterday's session of the national grange a conference with delegations from various organizations whose interests are related to those represented by the grange was held. Addresses were made by R. G. F. Coudage, of the Farmers' national congress; C. G. Craig, representing the Chamber of Commerce of San Francisco; C. C. Thayer, representing the Cramps Shipbuilding works at Philadelphia; S. B. Archer, of the United Commission league of Newark, N. J.; and Editor A. R. Smith of the Liberator, New York.

Ramored Train Robbery.

Trenton, N. J., Nov. 16.—It is rumored here that a train on the Pennsylvania railroad was held up and an express car loaded last night, just outside of Morristown, Pa., across the Delaware river from Trenton. At the Pennsylvania railroad station the officials deny that there was a hold-up, but say that the very originated in a row between the train hands and four tramps, who were seeking a ride.

Ives Plays Wonderful Billiards.

New York, Nov. 16.—Frank Ives last night broke all records at billiards, with the anchor nurse barred, in the final of five games against Thomas J. Gallagher. He clicked off 483 without a miss, which is the best made since the little anchor boxes were marked on the tables.

POWERS WILL ACT
IN TURKEY'S CASE

A NAVAL DEMONSTRATION AGAINST THE SULTAN.

He Will Be Informed Today That the Limit of Patience Has Now Been Reached—Government Is Said To Have Ordered Recent Massacres—Destitute Armenians Leave.

London, Nov. 16.—The Vienna correspondent of the Daily News says a Constantinople dispatch received there reports that the ambassadors will to-day give notice to the sultan of their intention to arrange for a joint naval demonstration.

A dispatch to the Times from Erzerum says that a letter nearly four columns in length, dated Nov. 3, fully confirms the accounts previously published concerning the massacre there. The writer says that it is impossible yet to ascertain the number of killed. Some persons assert that it will reach fully 2,000. Perhaps 1,000 is not so far short of the total. Continuing the writer says: "We have not dared to go to the quarters of the city where the Turks are too numerous. It might be said of the titles of Christians who have been victims thus far, and I have not the opportunity of investigating more than a tenth of the cases, I have yet to hear of a single dead Turk in this struggle. This, I think, disposes of the charges of the aggressions brought up against the Armenians. The bare, bold fact is that it was purely a massacre of the innocent inhabitants by the enraged Turks, and but for the presence of foreign consuls things would have been worse. With the coming of winter the misery in store for the remaining Armenians will be terrible."

The correspondent quoted, who is staying at the American mission, says that he has heard testimony in various quarters that the government ordered the massacre, which was to be executed according to previous orders.

The Daily News also publishes an extract from a private letter from Erzerum to the effect that Armenian priests have already buried over four hundred bodies of persons supposed to have been killed in the second massacre. Thousands are wandering homeless and starving.

A dispatch to the Times from Odessa says that nearly every steamer from the ports of Asiatic Turkey has on board large numbers of destitute Armenians who have fled from the scenes of the massacres. Crowds of refugees are also crossing the frontier into Russia.

FIRED ON THE PEOPLE.

Bloody Battle in the Barracks at Bogota, Colombia.

Bogota, Colombia, Nov. 13, via San Antonio, Texas, Nov. 16.—Heavy firing early yesterday morning in the barracks drew an immense crowd, which was ordered to disperse. The crowd was so great that it was impossible to move quickly, and the impatient officers ordered the troops to charge bayonets, which they did, but meeting with resistance, and five shots being fired from the crowd, the troops began firing upon the people. A regular battle ensued, and the crowd, being unarmed, were obliged to flee, leaving twenty-three killed and wounded. The cause of the firing in the barracks was that part of the guard had attempted to desert, and resisted arrest when subjugated. Fourteen were shot.

WORK OF FORTIFICATION.

Our Sea Coast Cities Being Prepared for Defense.

Washington, Nov. 16.—The annual report of General Craig, chief of engineers, to the secretary of war has been made public. He says that since the date of the last report the board has prepared projects for the artillery defense of Philadelphia, Key West, San Diego, the mouth of the Columbia river, Galveston and Puget Sound. Allotments have been made during the year for emplacements for fourteen twelve-inch, twenty-one ten-inch and seven eight-inch guns and eighty twelve-inch mortars to be distributed among Portland, Boston, New York, Philadelphia, Washington, Hampton Roads, Charleston, Pensacola, Mobile, New Orleans and San Francisco.

Schlatter Finally Located.

Denver, Colo., Nov. 16.—Schlatter has been definitely located on one of the Rooney ranches, six miles from the family residence. The ranch, which contains 160 acres, was taken up as a homestead by Alice Rooney and a house was built upon it and furnished, but was only occupied a sufficient length of time to comply with the law. It was vacant when Schlatter took up his abode there. Parties left Denver in carriages last night for the place named to find Schlatter.

Dr. Kennedy Appointed.

New York, Nov. 16.—A special dispatch to the World from Rome says on Monday next the propaganda will appoint Dr. Kennedy to the post of rector of the American college. The appointment will be made with the approval and assent of Monsignore Satolli and many of the American archbishops.

Wild Deed of a Husband.

Cincinnati, Ohio, Nov. 16.—John Koch yesterday afternoon shot his wife and then himself. Both are in a dangerous condition.

RESULT OF A FEUD.

Michigan Farmer Arrested for a Dynamite Outrage.

Mottville, Mich., Nov. 15.—Allen M. Thompson, a respected farmer of St. Joseph county, was arrested yesterday charged with being the man who threw a burning stick of dynamite into the open window of Dr. J. J. Sweetland's office Thursday night. The dynamite exploded with terrible effect, demolishing the office and much of the building in which it was located, and seriously injuring the two men who were in it at the time. Thompson denies the charge, but is held for examination. One of the victims may die. The injured:

Gray, Andrew; terribly lacerated; flesh of both legs torn away and dangerous bruises about the head; likely to die.

Sweetland, Dr. J. J.; severe bruises from flying timbers.

It is said that Dr. Sweetland and Mr. Thompson have been bitter enemies for many years and a war has raged between them bordering on a feud for a long time. A warrant was sworn out for the arrest of Thompson, and officers captured him and placed him in jail. Of late it is alleged he has been making numerous threats on the life of Dr. Sweetland.

Farmers Refuse to Pay Taxes.

Ottawa, Ont., Nov. 16.—All the efforts of the Quebec provincial police and bailiffs to collect the unpaid taxes in the township of Lowe, in the Gatineau region, have proved futile. The police have been kept at bay by the farmers, who are armed with clubs, and some of them with rifles and revolvers. There are fully 200 men in the mob, while the mounted police only number twenty. The officials of the county have applied for more police to the attorney general of Quebec, and he has replied that he has sent all that he can spare. Arrangements are now being made to call out the militia, and if this done, bloodshed is certain, because the farmers of the township, who have always refused to pay taxes, are now organizing. They are all of Irish descent.

Bradstreet's Grain Report.

New York, Nov. 16.—Bradstreet's says: "The total exports of wheat (four included as wheat) from both coasts of the United States and Montreal this week aggregate 3,325,000 bushels, the largest weekly total this year since the middle of last January. Last week the total was 2,566,000 bushels, in the week one year ago it was 2,909,000 bushels, two years ago it was 2,640,000 bushels, while in the second week of November, 1892, corresponding exports amounted to 3,943,000 bushels. The total exports of Indian corn from both coasts of the United States this week amount to 1,921,000 bushels, 50 per cent more than last week, and the largest weekly total of exports of corn since the third week of April, 1894."

Gold Shipments To-day.

New York, Nov. 16.—The exchange has ruled abnormally strong within the past few days, and rates have been higher than ever. Lazard Freres ship \$1,250,000 gold, and L. Von Hoffman & Co. \$1,000,000, by to-day's steamship. It is also probable that additional amounts will be forwarded by the steamships sailing on Tuesday next. Wall street, however, has got over its scare of gold shipments, and no alarm is felt over the present efflux by holders of securities, as it is felt that Europe will soon want cotton and wheat in increased amounts, and that the high rates of exchange will prove to be temporary.

Spring Valley Jury Out.

Princeton, Ill., Nov. 16.—The jury in the trial of the thirteen Spring Valley men charged with driving the colored people from their homes last August with intent to cause them to leave the county against their will went out at 5 o'clock yesterday afternoon, and it is expected that a verdict will not be returned before to-night. State's Attorney Johnson closed the argument for the prosecution. The instructions to the jury were voluminous, and the reading of them required over an hour.

Populistic National Convention.

Omaha, Neb., Nov. 16.—Senator William V. Allen, the Populist leader in congress, says the national committee will probably meet in January to arrange for the national convention, and will put a full ticket in the field on a free silver platform. He prefers a Western city for the meeting. Senator Allen believes the Republicans and Democrats will organize the senate next month without reference to the third-party members.

Kentucky Legislature Republican.

Lexington, Ky., Nov. 16.—In the contest of Wood, republican, for the seat in the legislature of Kauffman, democrat, a discovery has been made which beyond a doubt gives Wood the seat and will thereby give the republicans a clear majority on joint ballot in the legislature. It has been discovered that Kauffman's election while holding office as a city councilman was contrary to the statute and Wood will be seated without further protest.

Wants to Go to the Senate.

Washington, Nov. 16.—Joseph Cannon of Illinois is a candidate for the senate. He wants to succeed Palmer. According to one of his intimate friends, he sees no reason to fear defeat in his ambition. The Illinois legislature, he thinks, is bound to be heavily Republican. And he fears no member of his party in that state.

COMMISSIONER GIVES APPLETON FIRMS A STAY.

The Kaukauna Paper Company, the Western Paper Bag Company, and the Other Defendants Are Allowed Time in Which To Secure Some Important Testimony.

Appleton, Nov. 16.—[Special]—The case of the United States against the Kaukauna Paper Company, the Western Paper Bag Company and others, came up before Commissioner Kellogg today and was adjourned until November 22, to give the defense time to receive important testimony.

Black River Falls, Nov. 16.—[Special]—Mrs. Anna Darwin, aged 103, died today and her husband aged 107 is very ill. They have been married eighty-eight years.

MILK WILL NOT BE CHEAPER.

Local Dealers Talk of the Business—Twenty-Two Wagons in Use Here.

The coming winter will see no cut in the price of milk, and five cents a quart will be the ruling figure. This is the opinion of local dealers. Six years ago seven milk wagons were running the streets of the Bower City, but today by an actual count, twenty-two milk wagons are in use to supply the wants of the residents.

"Is it any wonder that there is no money in the business?" remarked a local dealer. "It seems now days that all a man needs is a horse and wagon. He can easily get milk from the farmers."

Besides the regular wagon routes there are scores of cows owned by persons residing within the city limits and each one also supplies some of the neighbors with lactical fluid. Either Janesville people consume a great deal of milk or else the milkman is justified when he complains of the state of the business.

IS LOSING PRESTIGE.

Great Britain Is Again Humiliated by Turkey.

Constantinople, Nov. 16.—The sultan apparently has not tired of snubbing Great Britain. Quite recently he decorated Bahri Pasha, who had been removed from a governorship at the instance of the British ambassador, Sir Philip Currie, for ill-treating Armenians, and it was said that he was to be appointed to the command of the Turkish troops operating against Zeitoun, where the Armenians have seized the barracks and strategic positions after capturing a battalion of Turkish troops.

It is now announced that three prison officials of Moosh, who were dismissed some time ago upon the demand of the British ambassador, owing to their mal-treatment of prisoners, have been reinstated. The British charge d'affaires, the Hon. Michael Herbert, has demanded of the porte that the three prison officials be again dismissed.

The report of a serious outbreak at Sivas is confirmed. The rioting was attended by great bloodshed but order has been partially restored and the Turkish officials are protecting the foreigners there.

No change in the situation is anticipated for some days to come. The reports of a conflict between the Albanian regiment and the Tripoli regiment at Yildiz Kiosk have not been confirmed, although it is well known that there has been bad blood between the guards at the palace ever since the Tripoli regiment furnished the sentries instead of the Albanians, as a result of notes being left with the different palace officials saying that their lives were in danger and that there was a plot to assassinate the sultan.

SPECULATION IN WHEAT.

Lord Salisbury Says He Sees No Excuse for Interfering.

London, Nov. 16.—The Times publishes the correspondence which has been going on between the Marquis of Salisbury and Robert Jasper More, member of parliament from Shropshire, Ludlow division, relative to the appointing of an international conference to investigate the subject of speculation in wheat. Lord Salisbury wrote that the matter had been frequently considered, but that it was very difficult to distinguish between genuine and fictitious transactions. For this reason the government has been unable to convoke the conference. Mr. More then wrote another long letter with a view to inducing Lord Salisbury to change his position. The Times, editorially commenting upon the correspondence, thinks that Mr. More has failed to establish his case.

Senator Sherman Improving.

Washington, Nov. 16.—Senator Sherman, who has been confined to his house with a severe cold, was somewhat better yesterday.

Physicians Have Found Out

That a contaminating and foreign element
in the blood, developed by indigestion, is the
cause of rheumatism. This settles upon the sen-
sitive sub-cutaneous covering of the muscles
and ligaments of the joints, causing constant
aching and aching, and aggregating as a color-
ous, chalky deposit, which produces stiffness
and distortion of the joints. No fact which ex-
perience has demonstrated in regard to
Hostetter's Stomach Bitters has stronger
evidence to support than this, namely, that this
medicine of comprehensive uses checks the
formidable and atrocious disease, nor is it less
positively established than it is preferable to the
poisons often used to arrest it, since the medi-
cine contains only salutary ingredients. It is
also a signal remedy for malarial fevers, consti-
pation, dyspepsia, kidney and bladder ailments,
debility and other disorder. See that you get
the genuine.

dered grades at \$1, \$1.25, \$1.50 and \$2.
Our line has never been so complete
and prices so remarkably low. Bort,

I WANT to say to the laboring peo-
ple of the city, come in and I will
dress you nice and warm at prices
you never heard of before, as I will
say here, I will sell these suits, as
they must go in ten days. If you

conscientious, pains-taking practi-
tioner, and the public may rest assured
that he will undertake no case beyond
the reach of medical skill, for the sake
of pecuniary gain. Dr. Brewer has

COL. SMITH CHARMED A LOCAL AUDIENCE

LECTURE ON "THE SONGS OF PATRIOTISM."

Male Quartette Added Interest to the Entertainment—Scots Enjoy a Social at Their Rooms—Surprise for Mr. and Mrs. J. E. Gleason—Columbia Opera Company's Matinee

Janesville audience spent a delightful evening in listening to Col. Nicholas Smith's lecture on "The Songs of Patriotism," at the Court Street M. E. church last night. The lecture was given under the auspices of W. H. Sargent Post, No. 20, G. A. R. and the decorations of the church were handsome and appropriate to the occasion. Interest was added to the

lecture by the singing of the male quartette, composed of E. O. Kimbrey, H. C. Buell, D. E. Bennett and Archie Crawford with Miss Ada Pond as organist. Dr. J. B. Whiting introduced Col. Smith who was greeted with prolonged applause. He spoke of the song that had cheered the warriors of the different nations and closed with an intensely interesting treatise of the songs of the civil war and a tribute to the flag. There was not a dull moment in the lecture and the audience enjoyed it fully.

It was Colonel Smith's first appearance as a lecturer in his old home, his other addresses having been from the pulpit. His reception was most gratifying. The theme he chose was a stirring one and was treated with an eloquence that moved his audience deeply. That his address would be scholarly and thoughtful was expected but even those who had heard him oftenest had not looked for so powerful an example of platform oratory.

Scots Spend a Merry Evening

An informal social and dance was given by the Rock County 'Caledonian Society' at their rooms in the Bennett block last night. William Paul was the master of ceremonies, and the programme was as follows:

Piano Solo.....Miss Selkirk
"There was a Lad Was Born".....James Hutton
"The Battered Skirt".....Miss Hamilton
"Bonnie Banks of Loch Lomond".....Miss Selkirk
Comie Songs.....John Richardson
"When I Am Big and Seventeen".....George Kline
"Rolling Home to Bonnie Scotland".....Janie Marshall
Remarks on "Scotland".....Dr. James Mills
Vocal Solos.....Mrs. Glen Ald
"The Scottish Emigrant's Farewell".....David Penn
Reading.....John Hodge

Mr. and Mrs. Gleason Surprised.

A number of the friends of Mr. and Mrs. J. E. Gleason quietly assembled at their pleasant La Prairie home last evening, the occasion being in the nature of a surprise party. The affair had been quietly planned during the week by the self invited guests, who came with well filled lunch baskets. The occasion was a very enjoyable one, and it was a late hour when the Janesville party returned home.

Opera Company Gives a Matinee.

A good sized audience attended the matinee given by the Columbia Opera company at the Myers Grand this afternoon. "Mikado" was the bill, and it was well sung. "The Bohemian Girl" was presented last night, the house being packed. The engagement will end with tonight's performance.

THIS DAY IN HISTORY

1315—Battle of Morgarten; the Swiss defeated the Austrians.
 1632—Gustavus Adolphus, the idolized king of Sweden, killed at the battle of Lutzen after defeating the imperial army under Wallenstein. Gustavus Adolphus was not only the most illustrious hero of Sweden, but of his time as well. He ascended the throne in his seventeenth year and at once gave proof of extraordinary abilities. He defeated the allied armies of Poland and Russia and gained new territory for his realm. The Protestants of Germany invited him to champion their cause against persecution. In the Thirty Years' war thus inaugurated he combatted the great Field Marshal Tilly, who was killed in battle, and Wallenstein. Although a master in war he possessed the noblest qualities of manhood and proved a wise and gentle ruler. Schiller called him "the first commander of his century and the bravest soldier in the army which he created."

1811—John Bright, English statesman, born; died 1889.
 1893—Samuel Augustus Cole, well known art collector and critic, died in St. Louis; born 1835.

ANOTHER DEAD NEW YORKER.

David B. Hill's political funeral will be held the day he leaves the senate. New York has no more use for him except as a potent sort of ward boss. All thought of him as a presidential possibility may as well be dismissed. He may, and probably will, continue for years yet to believe himself to be in the "line of succession" to Cleveland, and the inner circles of his admirers may still regard him as presidential timber, but no considerable number of his fellow citizens will ever again be able to take his pretensions in that respect seriously. There will be some regret, even among republicans, at Hill's swift and complete extinguishment, for he has certain qualities calculated to win admiration, although this feeling in his case is not very discriminative. He is a resolute fighter, and he sticks to his friends through evil and good (and especially evil) report. His fights, however, have usually been in a bad cause, and his friends, or the majority of them, are the sort of men who hinder rather than help the party which they lead. From the outset in his career Hill has stood with the worst elements on his side, and the cause of decent politics will be advanced by his effacement.

PARENTS NEED TEACHING.

There would be less talk about the "good old days of the three R's" if parents would spend an afternoon, now and then visiting the schools. They would find that the modern methods of teaching reading and arithmetic are immensely superior to the old way, and that the results show a far greater proficiency in the pupils than could be reached by the methods in vogue twenty or thirty years ago. The subject is one of great interest, especially to parents having children in school, and is seldom discussed except by those who never visit the schools and who criticize without knowing what they are talking about.

Have you stopped to think how much the democratic administration is costing the country? While republicans were in they paid off the national debt at the rate of \$100,000,000 a year. Since Mr. Cleveland came in, on the other hand, the debt has grown \$405,338,303. A net loss of \$600,000 in three years is more than people expected, as the verdict of the ballot box this fall showed.

Not less than fifty young men are idle in Janesville today, hanging around cigar stores and street corners. Not one of them but might have a good place would be but work—work intelligently and faithfully. The young man who sits around waiting for "something good" is pretty apt to find himself sliding toward something bad.

If the wishes of business men are consulted as to the length of the democratic campaign next year there will be no campaign at all. The day is past when business men and the democracy have anything in common.

Business men are not worrying about the length of the democratic campaign next year as much as Chairman Harrity thinks. They are indifferent as to the democratic campaign whether it be long or short.

Mr. Cleveland's anxiety to "put the postal service beyond the reach of politics" simply means that the last republican has been chased out, and that a stone wall is now to be built.

If there are 200,000 more democrats than republicans in the country, as Senator Mitchell says, Salt Creek winter resorts must be second.

A RELIABLE PILE CURE.

The Pyramid Pile Cure is the safest and surest pile cure on the market, because it contains no mineral poisons nor opium nor cocaine, but can be used with absolute safety and certainty of cure.

Many physicians are now using the Pyramid Pile Cure in place of surgical operations, being painless, convenient to use, and the patient can attend to his daily occupation while the cure is being made, as it is used at night and no additional treatment is necessary.

Dr. Wharton says the Pyramid Pile Cure will prove a blessing to mankind, when it is remembered that heretofore a surgical operation was considered the only cure with all its danger to life, intense pain and an expense of from ten to one hundred dollars, to say nothing of the possible return of the trouble. The Pyramid Pile Cure is sold by druggists at 50 Cents and \$1.00 and does the work quickly and safely.

A book on cause and cure of piles will be mailed free by addressing Pyramid Co., Albion, Mich.

GETTING THERE.

We have the largest stock of Woolens in Rock County—we have too many and fulls realizing the fact that but six weeks remain before the season closes—we propose to reduce our stock of Woolens if real low prices will do it. We have enjoyed an exceeding good trade since the first of August "Thanks" and have kept our tailors all busy and all of the time (in the shop not in the store). We are anxious to RUSH 'EM for the next six weeks, so we will make prices on Suits, Overcoats and Pants that will made them sell. First-class Suits, guaranteed all wool and reliable colors, \$20 and upwards. Overcoats in Melton, Beaver, Shetland or Chinchilla, \$25 and up. These goods are worth more but we have too many and prefer to cheapen now than later. You know us for veracity.

DECLINE IN TRADE AMONG LEAF MEN

MARKET NOT SO LIVELY AS
LAST WEEK.

The Recent Rains Did Not Bring the Weed Into "Good Case," and But Little of It Was Taken Down in Consequence—The Transactions as Reported.

The local leaf market conditions have assumed a more quiet aspect and the volume of business done is noticeably less than for the past few weeks. Sales from the warehouse have not kept pace with the purchases, and dealers are disposed to slacken up somewhat in buying. It is not expected The Leaf says, "That business will reach a great degree of activity before the close of the year as the approaching holidays will be a disturbing element in business and the approaching stock taking time will tend to limit business from now on. The drizzling rain of last week did not bring tobacco in good case and while a few farmers took down a little the larger portion did not remove any from the poles. Several packers from this market examined the hanging tobacco and some of them seem disappointed at the result of the investigation, the percentage of good leaf not being as great as they had anticipated.

Edgerton Conditions Similar
At Edgerton, the condition of the market is much the same and The Reporter says there has been less riding in the growing districts for the new crop since last report, than the several weeks past, but buyers are still hunting desirable lots of old leaf in nearly all sections. The movement in '93 and '94 is about equally divided and in the aggregate amounts to quite respectable proportions.

Edgerton packers have also been quite busy during the week. Shuman & Stewart sold 30 cases '93 and '94 to Chicago parties and purchased 150 cases from growers, E. C. Hopkins has disposed of a 50 cases lot and H. S. McGiffin bought a car load of '94 of George Rummell and two car loads at Stoughton. Conway Bros. sold a 63 case lot and Chris Olson 100 cases of fillers to Geo. Underhill. A. S. Flag and Phil Bonn have brought several lots during the week.

Another season of casing weather is here and probably some more hanging tobacco will be removed from the poles.

The sales reported in the past week include the following.

Sales in the bundle; Peter Paulson, 3 acres '95 at 6 & 2 cents.
B. Anderson 2 acres '95 at 6 1/2 & 1 cent.

TOSSED IN THE AIR BY A COLLISION

ANOTHER ACCIDENT ON MADISON AVENUE.

This Time No One Was Seriously Hurt, But Fred Schultz, Mrs. Bellville and Miss Maude Winship Were Hurling Headlong From Their Wrecked Buggy.

Three people were thrown headlong from their buggy at 11:30 o'clock this morning, when their horses became frightened at a street car. The accident happened within a block of the spot where the lives of Mr. and Mrs. Edward Lay were ground out, and although none of the victims were much hurt, they had a very narrow escape.

Fred Schultz, who works the Mitchell farm near Evansville, was driving the team, and Mrs. Bellville and Miss Maude Winship were riding with him when the accident occurred. When the horses saw the car, they began to plunge and when they shied sideways the buggy struck one of the poles that supported the trolley wire with great force. In an instant the three people were flying through the air, the shock having hurled them from the buggy. People who saw the accident hurried to the assistance of the two ladies and they were taken to the home of N. Ainsworth, while W. T. Dooley, the well known auctioneer, took Schultz to town. Neither Mrs. Bellville nor Miss Ainsworth were much injured although both were greatly frightened and had received a severe shaking up.

The horses got loose from the buggy when it struck the pole and ran away. The vehicle was a new one, and was damaged quite extensively.

Lou Stickney won the plaudits of a crowd on East Milwaukee street yesterday afternoon, when he captured F. Dahm's runaway horse by climbing in the rear end of the wagon as the outfit flew past him. No damage was done to the rig.

J. C. COMSTOCK FARM LAID OUT IN LOTS

NEW ADDITION PLATTED IN THE SECOND WARD.

Fifty-Five Acres Is Cut Up Into 130 Building Lots, and Will Be Known as "Whitehead, Matheson & Smith's Subdivision"—The Deal Closed Up Within the Last Few Days.

A new addition to the city of Janesville has been platted. It is the John C. Comstock farm and it will be known as the "Whitehead, Matheson & Smith addition."

There are 230 lots in the plat and all of them are as level as a floor.

The new addition is north of Benton avenue in the second ward and extends from a point a little east of the end of Cornelia street to the Chicago & Northwestern railroad, tracks.

There are 40 acres in the Comstock farm and the new subdivision takes it all in as well as including fifteen acres owned by A. E. Shunway and extending from the Comstock farm to the railroad track.

The new addition is just across Benton avenue from the Oak Lawn Hospital and will make very desirable residence property. The Milton avenue electric line is quite handy to the tract and as there has been rapid growth in that part of the city within the last few years the project will doubtless be an excellent move financially. The deal was closed within the last day or two although it has been on foot for some time.

GETTING OVER A COUGH
Is easy enough with the help of Hale's Cough Cordial. It's a regular step ladder we might say. You see it's the cough easily and quickly. In fact, all our drugs are step ladders to help one over every kind of earthly ailment. But coughs are what we particularly want to speak of today, for there is a long, hard winter before us, and the person who starts it off with a cough may never see the end of it. Therefore if a cough is what you have take Hale's Cough Cordial. Prentice & Everson warrant it to cure.

THE KIDNEY COMPLEXION

A New Name for the Complexion Caused by Sick Kidneys.

Pale, Sallow, Bloodless People, and What Makes Them Look So—How They Can Be Made Ruddy and Cheerful.

When your blood is all white and thin, instead of being red and rich, you get the "kidney complexion."

You can see it for yourself. You lose color and animation. You get sallow and pale. Even your lips are not red as they should be.

This is the kidney complexion. It is so-called because it is the fault of the kidneys.

They have not properly filtered your blood. They have filtered out too much red matter and left in too much white matter.

They have filtered out the life and the nourishment. This will never do.

You must not let it go on.

You must cure your kidneys and have them filter your blood. This you can do with Dr. Hobb's Sparagus Kidney Pills.

As soon as your kidneys begin to filter your blood properly, your blood will get red and pure again. It will get rich and nourishing, color and life bringing.

It will make you feel like a new man or woman.

Dr. Hobb's Sparagus Kidney Pills are a strengthening, healing tonic for the kidneys. They will cure your sick kidneys.

And when the kidneys are well, they will filter your blood, keep it pure, clean, cool and healthy.

For upon your blood depends nearly entirely your health or sickness.

When it is properly filtered, it will hardly be possible for you to fall sick.

When it is unfiltered, impure, unhealthy, you can hardly expect to keep well.

Dr. Hobb's Sparagus Kidney Pills are made principally, not from the stalks, but from the roots of the asparagus plant. From a special extract made by a special process which extracts and concentrates all the virtues and healing properties of the plant.

Their action on the kidneys is almost immediate. They gently tone them up and heal all injuries or disorders. They stimulate them to healthy action and make them do their work of filtering the blood.

Dr. Hobb's Sparagus Kidney Pills will bring back color and life to pale kidney complexions, revive flagging energy, strengthen the muscles, and cure all kidney and blood troubles and disorders.

They will relieve and cure Bright's disease, diabetes, congestion of the kidneys, rheumatism, pains in the joints, limbs, sides and back, anæmia, chlorosis, gout, sleeplessness, depression of spirits, nervousness, headache, dizziness, hysteria, etc.

They will do it simply enough by simply making the kidneys filter the blood.

And their success comes from recognizing the truths, that pure blood means health, that impure blood means disease, that only the kidneys can filter and purify the blood.

A few doses of Dr. Hobb's Sparagus Kidney Pills will relieve. A few boxes will cure.

Sold by all druggists or mailed free to any address for 50 cents a box.

To Wash Machinery.

A satisfactory method of removing sticky deposits of grease and dirt from parts of machinery by means of soda lye is reported as being employed to a considerable extent in England. To 1,000 parts by weight of water, about ten or fifteen parts caustic soda and 100 parts ordinary soda is the rule. This mixture is boiled, and the parts of the machinery that are to be cleaned are placed in it, this treatment having the effect of quickly loosening all grease, oil and dirt, after which the metal is thoroughly washed and dried. The action of the lye is, of course, to form with the grease soap soluble in water; and to prevent the lubricating oil, etc., hardening upon the parts of the machinery when in use, a third part of kerosene is added.

His Idea of Distance.

A Windham county, Conn., man, who rounded out 75 years of his life without ever going more than 20 miles from his birthplace, was one day answering the questions of a distinguished western visitor, who had come on to the old town from far beyond the Mississippi valley to learn of the childhood of his father and mother, who were born in Windham county. The old native gave the westerner just the details the latter was seeking.

"And I suppose you have always lived around here," said the man from beyond the Mississippi.

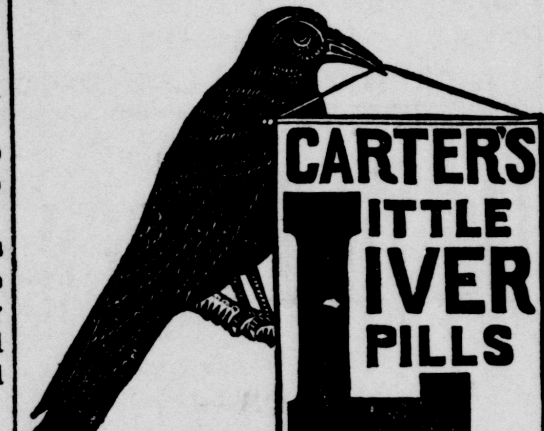

"Oh, no," replied the native, "I was born two miles from here."—Philadelphia Record.

A HERD OF DRUNKEN STEERS.

Texas Longhorns Intoxicated by Rotten Apples.

Fort Scott special to St. Louis Globe-Democrat: A herd of Texas steers, literally intoxicated on the fermented juice of rotten apples, is an emergency not contemplated by the authors of the Kansas prohibition law, and its several amendments; yet such a spectacle was recently witnessed by the chief of the metropolitan police force of this city and the sheriff of Bourbon county, who have explicit instructions from the department of the state to rigidly suppress the use of intoxicating liquor by the people of their respective jurisdictions.

Patrick Gorman, an extensive stock feeder, a few days ago shipped to his ranch, ten miles northwest of this city, a herd of wild steers from the plains of Texas. During their first night on a Kansas ranch they stampeded through the line fence of the pasture into an apple orchard of the Alf Cleal farm. The prolific fruit season made it unprofitable for Mr. Cleal to gather but a small per cent of his early apples, and the burdened trees had dropped their ripened fruit to the ground full three layers deep. The apples had rotted and were in a state of fermentation that makes them a most intoxicating feast for cattle. Until the next morning the beasts glutted themselves, and were found in a condition of inebriety that caused them to conduct themselves with that boisterous hilarity in which man is wont to indulge when overcome by the effects of Kansas "applejack." The effect of the fermented apple juice was as varied in the cattle as it would have been in as many men. Some of them belched and contorted in drunken debauchery, others were on their muscle and dangerously vicious, while some of them laid helpless and harmless. Their demonstrations attracted the neighbors for miles about, and when the facts became known in town crowds of people drove out to witness the revelry of a "steer beer garden." They were rounded up and corralled with much difficulty by a score of experienced cattlemen. Not unlike human drunkards, the effects of the dissipation on some passed off soon, while others were in the "sobering up" process for two days.

NO MORE RHEUMATISM.

Sheriff Howe Cured of Rheumatism
by Dr. Greene's Nervura.

No One Need Longer Suffer From
Rheumatism or Neuralgia. Dr.
Greene's Nervura Blood and
Nerve Remedy Always Cures.

Half the world suffers from pains and aches when there is not the slightest reason for so doing. Headache is alarmingly frequent and leads to serious results. Backache is most common and keeps thousands in misery. Neuralgic pains of side or chest torment myriads of victims. All this suffering is caused by a weakness or diseased condition of the nerves and blood, is entirely unnecessary, and can easily be cured.

Sheriff E. W. Howe, of Northfield, Vt., advises you in all cases to use Dr. Greene's Nervura blood and nerve remedy. He tells the great good this remarkable medicine did him and to show the high esteem in which he is held by his townspeople and that you can trust implicitly in every word he says, it is only necessary to state that Sheriff Howe has been sheriff and Deputy sheriff of Northfield for 23 years; is town treasurer, street commissioner of Northfield, chief engineer of the fire department, town grand juror and school committee, besides being a prominent business man well known throughout the state of Vermont. The word of a man so highly trusted and honored should be taken and his advice followed by all.

"I was sick five months which left me with as much rheumatism. The asthma would take me most any time especially nights when I was obliged to get up and open windows in order to breathe. It took me once on my way home and was so

that I was obliged to have help to get home. I suffered greatly with this trouble. My rheumatism at this time was so very bad, being so that for six weeks that could not leave the room and for five months I did not do a day's work.

"I saw Dr. Greene's Nervura blood and nerve remedy advertised and the cures effected by its use, and thought it might hit my case, and it did. The asthma is greatly improved, in fact, it is nearly cured, and the rheumatism is greatly helped, I think very highly of this remedy for it is good. Dr. Greene's Nervura blood and nerve remedy for asthma or rheumatism, for it is a good medicine. I deem it simple justice to a great remedy to write this letter. I never expected to do any more work when I was sick, but the Nervura did me a great deal of good and I am now able to work again."

It is not a patent medicine but the prescription of one of the most successful living specialists in curing nervous and chronic diseases, Dr. Greene, of 35 West 14th street, New York city. He has the largest practice in the world, and this grand medical discovery is the result of his vast experience. The great reputation of Dr. Greene is a guarantee that his medicine will cure and the fact that he can be consulted by any one at any time, free of charge, personally or by letter, gives absolute assurance of the beneficial action of this wonderful medicine.

GREW FAINT BY THE WAYSIDE.

Car Horses Browse by Rails While Passengers Wait.

I heard a Western man say the other day that in "his part of the country" the smallest towns have electric lights and some idea of the fitness of things, while within forty miles of New York mine host will often light one to bed with a candle. It reminded me of something I saw in New Rochelle last week, something that would have been likely to cause a small riot in New York. A surface car, drawn by two wonderfully lean horses, was creeping out toward the Sound. It finally came to a dead stop.

The driver calmly alighted, unhitched one of the sorry nags and allowed him to browse for a few minutes by the wayside. In time a boy brought another horse and we proceeded. The hungry horse was not long for this life, and there was much comment, sympathetic and angry.

A Swedish sailor, bound for some yacht at anchor in the Sound, "sized up" the occurrence in a sentence:

"If that horse he was in New York he would there be arrested." He meant that the Society for the Prevention of Cruelty to Animals would have carted the brute away, and he was right. But New Rochelle, even along Pelham avenue, is long suffering, and slow to anger.

Making Cement.

S. D. S. would like to be told how to make cement that, when dry, becomes hard like stone. Answer: This depends somewhat on the use to be made of the cement. For araways, walks, etc., one of the best mixtures is one part of Portland cement and three parts of good, clean sand. The sand must be free from earth and vegetable matter, and of such a quality that water will run from it nearly clear. Mix the cement and sand thoroughly by sifting or shoveling, then put into a box and very quickly wet it thoroughly, so that it will be of the consistency of good, stiff mortar. It must be used at once, for it sets almost as quickly as plaster of Paris. It takes some hours, possibly some days, to become thoroughly dry. While it is still damp, if a finer finish is required, mix cement with an equal quantity of sand and put on an outer coat and allow this to dry. A thin covering of pure cement and water, about as thick as stiff batter, makes a finish almost equal to earthenware. Properly made and worked, this cement will stand heat and frost without injury. It should, however, be thoroughly dried before winter.

Prospective Joy.

"Say, Chimmie, come down—goin' to have a bully lot o' fun." "Wat?" "We've fed de goat six seidlitz powders, an' now we're goin' to let 'im drink."

Two New York Cloak houses

with Chicago offices where they displayed their entire sample lines being through with their season and not wanting to pay express charges on the garments to New York, offered them to us at a liberal discount and always on the lookout for snaps, we were right there and made the deal with both for the entire lines. These garments were made up to show to the best merchants in the west, and were made particularly well, not one but what is right in every way. They were never handled on the road, but have only been shown in Chicago and are therefore in better shape than would be the case with those made up now in the mid-season rush. They are in stock today and comprise many exclusive styles not seen heretofore in ladies' and misses' jackets, in boucles, cheviots, kerseys; also plush and cloth capes and fur garments.

Don't buy a cloak of any kind until you look here where we positively guarantee to save you one-third.

AN IOWA SCANDAL.

Traffic in Lunatics Alleged to Have Been Carried On.

Des Moines, Iowa, Nov. 15.—The State Executive Council has discovered what promises to develop into one of the biggest scandals ever known in state official circles. Under the state laws, insane patients whose own resources will not pay for their support in the state hospitals must be cared for by the counties from which they are sent, provided they have a residence there. Patients who have no residence are cared for at the state's expense. At present there are 140 state patients in the Independence asylum, 100 at Mount Pleasant, and almost as many at Clarinda. For a long time it has been a matter of wonderment with the state officials that there should be so many state patients. The charge per patient is \$14 per month, besides fees for transportation. A few days ago a bill was presented by Scott county for fees for taking state patients to the hospital. It has been investigated, and yesterday the Executive Council refused to allow it. The investigation developed that insane patients from the counties in Illinois adjoining Scott county have been sent over to Scott by the Illinois officials and taken to the state institutions as state patients by the Scott officials. It would always be explained that it had been

impossible to learn what their real residence was. The Council has convinced itself that this has been going on, systematically, for a long time. It also learned that there had been similar cases from Woodbury county, and, in fact, from most of the counties which border on the state line. The officers in the counties receive 6 cents per mile for transportation and 40 cents per hour for time consumed in making the trips, and, for these fees, have lent themselves, so it is charged, to the scheme. The matter will be further investigated.
